June 9, 2009

TO: County Board Supervisors

RE: Priority Review – Document #1

Attached you will find the distillation of the 2004 and 2009 Priority Review. This is one of 3 documents that will come from the review. This first document (Document #1) only addresses those programs that were in existence in 2004 and are currently (or facsimiles thereof) in 2009. It offers both a historical perspective and an objective ranking of all programs based upon the criteria established by the 2004 Priority Review Committee. In addition, it gives a factual assessment of whether a program is mandated or not.

The other two documents include (Document #2) a full 2009 Department breakdown by rank (which will include all current county programs), and (Document #3) a breakdown of non-mandated programs which focuses on those non-mandated programs that do not at least break even, or produce a significant expense to value ratio.

Several things have become apparent as part of this exercise. The first is that although the 2004 effort was a major undertaking that produced some real concrete analysis, there was a lack of definition as to what composed a "program". Hence the ranking of tasks (purchasing office supplies, releasing information to the press, printing), and of positions (Chief Deputy). I believe we have corrected those minor issues in the 2009 breakdown. In addition, there has been a great degree of emphasis on both accurate funding numbers and certainty in mandated programs.

Just as the 2004 Program Priority Review Report was a snapshot in time, so is the 2009 effort. We would have not been able to produce these three 2009 documents without the efforts of all of those who worked on the 2004 process. My hope is that the next time the county undertakes this process, those leading the effort will learn as much from our combined efforts as I did from the 2004 process.

I had initially intended to go into great detail with this document and the subsequent ones as well. I have decided instead to use these (coupled with the County Strategic Goals and Objectives) as the beginning of a conversation as to what needs to occur. On Tuesday, June 16th, I will spend some time talking about parts of the reports, as well as some interesting trends. In addition, I will give my State of the County address on the 16th as well. I had originally planned on presenting that in July, but it is my belief that we cannot wait.

Thank you for your time and attention, and you willingness to serve the county in these challenging times.

William H. Reynolds County Administrator
